The way we bank

Closing a branch is a decision we take very seriously. We know it can affect people in the local area and we'll always work hard to guide you through the changes and find the best way to serve you.

The world of banking has changed a lot lately and the changes show no sign of slowing down. These are some of the things we're experiencing that mean we can't offer the same number of branches as we have in the past:

- More people are doing their day-to-day banking online, by mobile app, or over the phone
- More people are even doing bigger things that way, like opening a business account or getting a loan
- Fewer people visit branches and do fewer transactions when they're there
- People often use a branch that is more convenient to them, and not one branch consistently
- People contact us in a variety of ways and today very few people only do their banking in a branch

-
- Branch transactions are down by 30% since 2014*
 - More than 3m mobile and online transactions in 2017*
 - 53% increase in the number of customers using mobile banking since 2014*
 - Mobile transactions have increased by 74% since 2014*

*Based on Royal Bank of Scotland England and Wales and NatWest Scotland.

People who do their banking online enjoy the speed, security and convenience that it offers. If you aren't already signed up, we can show you how to get started and talk about any concerns that you might have.

But even in this changing world, we will always make branch services available to our customers. We will show you the nearest places you can do your banking or, where we can, find ways to bring the service to you.

This brochure will go through the alternative ways you can do your banking locally. And if you have any questions, we'll always be available to speak to you.
