

CITIZENS' CONTRACT

Working together
to create a
safer future

GREATER MANCHESTER
POLICE

CITIZENS' CONTRACT

Last year we started a conversation about how we can work together to make Greater Manchester safer.

Our Citizens' Contract explains what we will do and what we need you to do in seven simple points.

HERE'S WHAT WE WILL DO

HERE'S WHAT WE'RE ASKING THE PUBLIC TO DO

We will provide easy access to services in the most appropriate way

We need you to make the right contact to the right agency at the right time

We will share information with our partners to achieve better outcomes

We need you to provide information to help tackle crime and make communities safer

We will use the resources we have responsibly

We need you to understand and trust police decision making on use of resources

We will listen and help to build strong communities

We need you to come together to actively keep communities safe

We will make crime prevention advice available for all

We need you to protect yourself, your property, your family and communities

We will keep you informed and updated about policing

We need you to give the police your views and have your say on community safety

We will provide opportunities to be part of policing to keep communities safe

We need you to be part of your community and consider being a part of policing

This is everyone's Citizens' Contract.

Let's talk and keep making Greater Manchester safer.
